About me

I am a Computer Science and Design student from the Singapore University of Technology and Design (SUTD), graduating in May 2025 with a minor in Artificial Intelligence.

My expertise spans web development, application development, cloud computing, UI/UX design, and data visualisation.

I excel in collaborating with diverse stakeholders and translating complex data into compelling visual narratives to enhance user engagement.

Personal Life

I enjoy traveling, observing how people interact in different settings, and engaging in meaningful interactions with others.

“

To see the world, things dangerous to come to, to see
behind walls, draw closer, to find each other, and to
feel.

That is the purpose of life.

Walter Mitty
